Tuesday, October 4, 1870.

Hon. J. Robson on Schools. This distinguished gentleman is gifted be pestered by political agitators. Let them make a good use of the representation that they had. He did not wish to see the politiwriting very plausibly, but when the cal agitation so prevalent on the Island enopportunity occurs to put his profusely brought in for effect, but the debaters on such matters were a tax on the patience of the liberal utterances in operation, it turns out that his utterances were "bunkum." For instance, let any one read his address to the inhabitants of Nanaimo, and they will discover that he gets off somethey will discover that he gets off something about Schools and the School Law, He recommended him to withdraw his resolubut does not say a single word as to tion.' whether he is in favor of a Free School Robson, on May lst, 1867, on the amendment system or not. If any one can make of the Constitution. Let the public and out from his address to the people of electors find more inconsistency on a question Nanaimo that he is in favor of a Free represented in the Legislature, if they can; School, supported by the State, they we cannot. possess better powers of penetration than we do. He says: "The education of the young must be regarded as one of the first duties of a civilized government, -and I cannot hesitate to say that the existing educational system is as illadapted as the provisions thereunder are inadequate to the circumstances and necessities of the country." Now, what does this sentence mean? Possibly, the people of Nansimo-Comox, HENNESSEY BRANDY, in quarter casks, to whom it is addressed, may interpret ABSYNTHE, Ed. Pernod, it; but we cannot. On the School question, we had expected an honest, frank utterance. But no. The Hon. Mr. Robson has placed himself in the position of a man who can make his address to the electors mean anything that be may require hereafter. The hater of Free Schools cannot be offended openly; nor the lover of Free Schools enlightened as to his views on the matter. We can only conclude from the address that the people of Nanaimo are to be used. rather to serve his ends than theirs. On May 1, 1868, when the payment of the school teachers' salaries was before the Legislative Council at New Westminster, he said : "The hon, and learned gentleman (Mr. Wood) proposed to pay the teachers in full, after being notified by the Government. Such a proceeding would neither be just to the Government or the people. The teachers themselves did not expect to be paid in full. He knew one of them that had written to him, who was prepared to take two-thirds (cries: 'Name? name?') Mr. Bryant of Nanaimo, The system as For pursued by the teachers of Vancouver 18land was out of proportion to the wants of the country." Mr. Spanding, J. P., repudiated the statement that Mr. Bryant would take less than his salary. Mr. Robson, nevertheless, brought in an amendment virtually against the teachers being paid in full, -which was assented miss to by Gov. Seymour's agents in the Council. The system on Vancouver Island

is a candidate for Legislative honors, in

In the address of Mr. Robson to the people of Nanaimo, he speaks of self-government, and says he is in favor of it. Now, one would scarcely think it possible that he could have voted and spoken against the amendment of the Constitution in 1867; yet it is true. On April 1st, 1867, a resolution was introduced into the Legislative Council as follows: "That it is expedient to amend the present constitution of the Legislative Council as follows: 1. That the Council shall consist of twenty-four members-onethird nominated by the Crown and two-thirds to vote, one would suppose that Mr. Robson, the popular member for New Westminster, would have voted for it; but no. So here is the vote. For the Resolution: DeCosmos, Helmcken, Smith. Against the Resolution: Crease, Hamley, Ball, O'Reilly, Barnard, Wood, Walkem, Birch, Southgate, Pemberton, McDonald, Young, Sanders, ROBSON.
Before the resolution was put, Dr. Helmcken
moved the following amendment: "That
this Council cannot allow the session to close
without expressing its opinion that the Constitution of this Council is contrary to the principles of our race, calculated to create principles of our race, calculated to create dissatisfaction, and adverse to British traditions." There were for the amendment: DeCosmos, Helmcken, Smith. Against the amendment: Crease, Ball, Birch, Young, ROBSON, McDonald, Hamley, O'Reilly, Wood, Sanders, Walkem, Pemberton, Southgate, Barnard. Now, let our readers recollect that these votes were taken only three years ago; and then the Hon. Mr. Robson deemed the country unfit for self-government. It is May be had of the country unfit for self-government. It is now fit; but why? Is it because that gentleman wishes an office? or has he been con-winced of his error? We will not stop to Tuesday next the 4th inst. And all outstanding subanswer these questions; but we deem it our scriptions are requested to be immediately paid.

J. CHESTNEY BALES, duly as a journal to make people aware of oc3 duty as a journal to make people aware of the inconsistency of the ex-member of New Westminster. another to occur would be very injudicious!!!

Second the manner in which the principles were advocated. They had gone on very well before on the Mainland, before Union took place. It was from no desire on the part of the people of the Mainland that an addition was asked to the popular element in the Council. \* \* A large representation element might be beneficial: but the difficulty ment might be beneficial; but the difficulty at present existing of finding representatives, it would be quite impossible to increase the num-ber now. They did not want half-educated politicians. \* The present system of rep-resentation was quite sufficient for present pur-poses. He did not see why the people should House. \* \* The people of Vancouver Is-land were thankful, and thought themselves fortunate in being delivered from their late people to ask for what they do not want!

LONDON, Oct. 2.—The King of Prussia has sent 40 000 thalers for the relief of the people of Strasbourg and Metz. Last night large masses of cavalry of the 7th corps were thrown northward from Courcelles to reinforce the force at St. Barbe; and the artillery of the 1st corps advanced from St. Barbe to Noisseville to meet the enemy's offensive north-east movement. As Bazaine withdrew to-day, the cavalry will partly be used north-east and west of Thionville, to sweep the villages hitherto unscathed and clear them of provisions in reprisal for recent seizures of

German supply trains. The Germans before Paris will probably eceive their siege train to-day.

MAGIC SOAP.

Directions for Using Robinson's Magic Soap for doing a Large Family Washing in Two Hours, of Five or Six Dozen Pieces.

Hours, of Five or Six Dozen Preces.

1. Cut up fine a bar of the Soap, and put one-half of it into your boiler with sufficient water to cover well your white clothes to be washed, and let the Soap dissolve; then put your clothes in, stirring them, and let them just come to a boil; then pour out clothes and water into a tub and let them soak twenty or thi ty minutes, stirring them round in the tub occasionally to loosen the dirt. Such articles as collars, wristbands or any ar icle very dirty, should be rubbed through the hands a little while soaking in order to theroughly loosen the dirt before boiling.

2. While your clothes are soaking put the other half of your cut Soap into your boiler, with sufficient clean water to boil, and let it be heating. After your clothes have soaked wring them out well and put into your boiling water, and let boil from 5 to 10 minutes; then rinse, blue and hang out to dry. If the above directions are followed, we will guarantee your clothes clean and white.

3. For your celored and woollen clothes use the same

followed, we will guarantee your clothes use the same water you soaked and boil your white clothes with, only heating it up again, and pour it over your colored and woollen clothes, and let soak the same as your white clothes, also rubbing them through your hands while soaking, if very dirty. Then rinse in clear water, warm a your lands will bear, and you will thus accomplish a large washing in two hours.

By cutting up a bar of this Soap into two gallons water, and let boil until thoroughly dissolved, and then leave to cool, you will have two gallons of beautiful SOFT SOAP, as good as Common Soap for general house purposes.
